

Financial Disclosures

In accordance with ACCME's Standards for Integrity and Independence in Accredited Continuing Education, AAPM&R requires all individuals who are in a position to control the content of an educational activity to disclose all financial relationships with any ineligible company. The ACCME defines an "ineligible company" as any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Disclosures are made in written form prior to the start of the educational activity and any potential conflicts of interest that exist are mitigated prior to the start of the activity through AAPM&R's Conflict of Interest Disclosure and Resolution Policy Process. Individuals in a position to control content and their disclosed financial relationships are listed below and communicated to the learners prior to the activity starting.
